EXPERIENCE

IT Software Consultant/Trainer

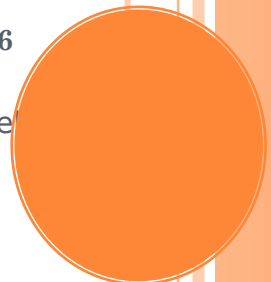

SysTech/Data Cogs • Aug 2004 – Present

- Provide software development, consulting and training services in Microsoft software development technologies including ASP.NET, Windows Applications, SQL Server, SharePoint and Mobile applications.
- Provide WSS3.0 & MOSS 2007 training/consulting nationally.
- Microsoft Australia Rediness Trainer: delivering courses on new technologies to Microsoft partners.
- Client Portfolio
 - Microsoft
 - Dimension Data
 - IT Training Solutions
 - Breeze Training
 - New Horizons
 - Department of Industry, Tourism and Resources
 - Myer Centre Brisbane
 - Cromwell Corporation
 - Redland Shire Council
 - United States Air Force

Senior Software Analyst/Programmer

State Development Trade and Innovations • Aug 2005 – Jun 2006

- I managed the technical development and enhancement of departmental systems. I gained large exposure to designing we

n-tier architecture (ASP.Net 2.0) in a web farm environment, SQL Server 2005, Team Foundation Server, AJAX and remoting technologies.

Software Analyst/Programmer

Redland Shire Council • Aug 2001 – Aug 2005

- Developed a range of windows and web based systems using Microsoft technologies. Focused heavily in ASP.Net 1.1, Windows.Net, SQL Server 2000, MCMS, Web Services and Security.
- Developed an Internet application providing an online service for residents and businesses to pay their rates, animal fees and property searches. The system also allows registered users to view financial transactions, property and animal information and log work requests.

Systems Support Officer

Redland Shire Council • Dec 2000 – Aug 2001

- Provided first hand support in the resolution of software and infrastructure issues, together with daily operational maintenance. This included diagnosing software and database problems, installing and configuring desktop computers and servers and providing network communications.

CONFERENCES

- Delegate at Microsoft Office Development Conference 2008 in San Jose, California.
- Invited by Microsoft Australia to proctor the Architecture (ARC) and .NET development (DEV) hands on labs at Tech Ed 2006/2007 Australia. Provided technical advice to the delegates working on the labs.
- Invited by Microsoft Australia to proctor the SharePoint 2007 deep dive course at Tech Ed 2006/2007 Australia. This involved working with SharePoint professionals through a two day intensive course about the new features of SharePoint 2007 and Office 2007.
